## 屏風 Japan traditional mini folding screen

"Tsukimi" Moon Viewing

In the Japan there is a custom of appreciating the moon.

In particular the full moon on the night of August 15 by the lunar calendar is appreciated.

Sensitivity and the sense of beauty that a Japanese loving the four seasons and shadow of handmade Japanese paper brings about produce delicate expression peculiar to Japan.

Please feel traditional culture in Japan.

## 床几 Traditional Japanese HAPPINESS Stool

You can see the scene that people rest on the Syogi stool in the Ukiyoe paintings of the Edo period.

Please feel new traditional Japanese fine shapes and colors.
